- (a) Price includes a *pair* of Hood Louvers (except WideFlow — which is a single, *wide* panel), choice of color of Pop Rivets (or “Smooth-Border” Models – where listed -- with Heavy-Duty, Under-Panel Mounting Tape) and Step-by-Step Instructions, and Titanium-coated Drill Bit.
(b) Before covered with Hood Louvers. Deduct, with Louvers in place: 10% for Hi-Flow; 20% for Regular-Flow.
(c) With the steel, no rivet holes, as are weld-in (steel sheet metal).
(d) On WideFlow™ (Hummer H3 and other vehicles), one wide panel per vehicle.

-- All Louver openings are *Angle* Cut, except Size Rectangular and Semi-Long Straight-Cut and In-or-Out Small Utility Vents (these 3 are *Straight* Cut at a 90° angle).
-- Hood Louvers are packed as *complete* sets, with instructions & color choice of Pop Rivets (Stainless Steel, Black or White) or under-panel tape (Smooth-Border).
-- All Hood Louvers are approximately the same thickness and strength as your vehicle’s sheet metal: XL, XXL, and WideFlow (H3) are .063”(16 gauge) ; all others are .050” (18 gauge). Gauges listed are as measured on a standard Steel Gauge.
